EDUCATION

Bachelor of Technology in Computer Science and Engineering   *Nov 2020 – June 2024*

Dr. Rammanohar Lohia Avadh University   CGPA: 7.33

EXPERIENCE

Cynayd Solutions   *Nov 2023 – March 2024*

ReactJs Developer   Remote

- Integrated RESTful APIs to streamline backend processes,achieved 20% faster page loading speed and boosted user engagement by 15% .
- Cooperated efficiently with cross-functional teams to deliver seamless user experiences, contributing to a 30% increase in project efficiency and on-time delivery.
- Created and launched captivating UIs for website projects, utilizing technologies such as React Js, HTML5, CSS3, and JS.

Oasis Infobyte   *April 2022 – Sep 2022*

Web development intern   Remote

- Designed and launched a responsive, user-friendly website for a local non-profit organization, increasing its online traffic by 35% and enhancing visitor engagement by 20%.
- Mastered front-end development by building and optimizing web interfaces using HTML, CSS, and JavaScript.
- Created an efficient temperature conversion solutions and Seamlessly integrated error-handling mechanisms for precise temperature conversions, improving user experience by reducing errors by 25%.

PROJECTS

StellarCode Live Github

- Engineered an advanced coding platform similar to LeetCode, employing React, React Router, Chakra UI, and Lottie resulted in a 40% increase in user engagement and a 25% decrease in bounce rate.
- Seamlessly integrated Supabase for user authentication, facilitating a 30% increase in user sign-up rates.
- Piloted a user-centric DSA platform to solve DSA questions, achieving a user retention rate of 85%.

Stellar Eats Live Github

- Developed a high-efficiency platform utilizing React, Redux, and React Router in the tech stack.
- Enabled users to click on restaurant cards for detailed information and explore the full menu, leading to a 25% increase in user engagement.
- Strategically implemented Razorpay, facilitating secure and efficient online transactions, resulted in 50% decrease in payment processing time.

Stellar connect Live Github

- Employed a versatile tech stack including React.js, zustand, JavaScript, Ant design, and clerk for user authentication, to deliver a high-performance user experience.
- Implemented a post-upload feature allowing users to upload and view posts, as well as like posts from other users, fostering user interaction and engagement.
- Designed and implemented a seamless connection feature in the MyNetwork section, enabling swift addition of up to 150 new network contacts weekly through effective use of Firebase for optimized user data handling.
- Utilized lazy loading techniques to enhance app performance and improve the user experience.

ACHIEVEMENTS

- Completed 300 advanced algorithm and data structure problems on platforms including Gfg, Coding Ninja, and Leetcode, sharpening problem-solving skills and enhancing proficiency in coding languages.
- Active participant in Hacktoberfest, contributing to open-source projects with 4 successful pull requests.
- Took part in Hack this fall 3.0, a 36 HR hackathon, and learned about various new technologies (2023).

TECHNICAL SKILLS AND INTERESTS

Languages & Tools: Java, Javascript, Swift , C , Postman, VS Code, IntelliJ Idea, git , prisma
Frontend & Libraries : React, Redux, TailwindCSS, HTML, CSS, SASS,MUI, Ant design, zustand
Backend & Databases: Django, Node.js, Express.js, MongoDB , SQL, websockets
Soft Skills: Conflict Resolution, Communication , Teamwork , Adaptability

CERTIFICATIONS

- Introduction to HTML   • Core Java   • Basics of React
